OCP letter to President Macri to support open contracting within the **G20**

Open data on infrastructure and other public procurement is essential to support investment and integrity

20 FEB 2018

Carta en español

Dear President Macri,

Cc: Laura Alonso, Head of the Anti-Corruption Office Pedro Villagra Delgado, Sherpa to the G20 Laura Jaitman, Deputy of G20 Finance Track

As leading Latin American and global open data and development organisations, we are pleased to see the progressive agenda on inclusive growth and infrastructure that the Argentinian government has set for the G20. We urge that you make open and clean public contracting a key part of that agenda.

Proposal for the G20 ACWG

For the next group meeting we propose:

 capacity building workshop on Open Data for Anticorruption with the Open Data Charter and the Open Contracting Partnership as key partners.

Explore the implementation of the Anticorruption Opening Guide as a **benchmark of our countries' progress in publishing data to combat corruption,** especially those related to procurement.
