Conflict of interest a growing priority for the G20

- Building on previous G20 agendas, the Argentinean Presidency is leading through two outputs:
 - High Level Principles for Preventing and Managing Conflict of Interest
 - Good Practices Guide for the Prevention of Conflicts of Interest in the Public Sector

Taking stock of relevant instruments, standards and knowledge

A modern and holistic approach to managing conflict of interest

What value-added the draft principles could provide?

- Addressing critical risk areas, including pre- & post-public employment; advisory & expert groups
- Implementation support
 - Such as verification of information across jurisdictions
- Collaboration with business and non-profit sectors to ensure a whole of society approach
